Mission Statement

The mission of the IACP International Training Committee is to provide access to training resources and to disseminate CBT throughout the world. The IACP training committee aims to spread the reach of CBT, particularly in regions where CBT is under-represented. Our goal is to make high quality training more easily available to individuals, groups and organizations all around the world, in particular, to individuals who lack available resources within their own countries.

Our new initiative -- “ [Speakers' Bureau](#) ” -- is a cornerstone in this work and provides several online training services. This is a wonderful option for those who are unable to travel, do not have the time or the resources to travel to conferences, lack training resources within their own country, or simply enjoy training online. Please visit the [Speakers' Bureau](#) to get more information on our training initiatives.

For questions, comments and ideas about IACP's training initiatives, to set up training for yourself, for your group or organization through our speaker's bureau, or to contribute your services to the committee please contact IACP's International Training Committee Chair, Henrik Tingleff, at iacptrainingcommittee@gmail.com

For information about existing training programs and activities around the world you can contact the organizations [here](#).
